

# Celina Lind

## Software Engineer

Las Vegas, NV | [clind323@gmail.com](mailto:clind323@gmail.com) | [linkedin.com/in/celina-lind](https://www.linkedin.com/in/celina-lind) | [github.com/celinaLind](https://github.com/celinaLind)

### Education

---

**Bachelor's of Computer Science** | Western Governors University | **Expected Graduation: 2026**  
*Data Structures, Algorithms, Deep Learning, Software Engineering*

**Associate of Science in Computer Science** | Columbus State Community College

### Skills

---

**Languages:** Proficient Javascript, Typescript Intermediate Python, C#, Java Beginner SQL

**Tools & Technologies:** React, Vue, Bootstrap, Material UI, Express.js, Next.js, Firebase, Pinecone, Postman, Google Analytics, Bash, Flask, Groq, OpenRouter, OpenAI, BitBucket

### Experience

---

**Software Engineer Intern** | *Reel Talk* | *September 2024 - Present*

Movie community platform where users are able to rate and discuss movies and tv shows.

- Create and organize Rapid API calls on Postman for populating movies and shows
- Develop the backend component for featured movies and tv shows
- Update developer documentation with new processes and set-up practices

**Software Engineer Fellow** | *Headstarter AI* | *July 2024 - September 2024*

Intensive 7-week program that focuses on collaboration, development, and networking.

- Developed five AI solution projects with a team using Pinecone, Flask, Firebase, and Stripe API
- Collaborated on a *team of four* to create a AI chat bot that categorized user complaints using Whispers, Google TTS, and Tortoise TTS
- Optimized projects based on feedback received from professional software engineers from businesses like Google and Meta

**Junior Software Developer** | *eComSystems* | *Jan 2023 - April 2024*

Created website solutions for local retailers across the US.

- Developed custom sites to meet customer expectations, improving user experience and site performance using Vue.js, C# and Google Analytics
- Conducted system analysis and troubleshooting, resolved software issues effectively and promptly
- Utilized Agile development methodology to prioritize tasks, manage timelines, and ensure efficient project delivery
- Created automated functionality to confirm retailer information was being updated on all platforms using Javascript

## **Intern to Junior Software Developer | Novvia | May 2021 - Dec 2022**

Designed and built iOS and Android mobile applications for startups.

- Developed user interface and backend for mobile applications using Flutter, Dart, and Postman
- Led team in communications and development of pivotal web development projects
- Conducted quality assurance testing by creating and running test cases for all app versions

## **Projects**

---

### **Pantry Tracker | ~ 18 hours | Fellowship (Individual)**

[github.com/celinaLind/pantry-tracker](https://github.com/celinaLind/pantry-tracker)

Build a CRUD application to track pantry items and generate recipes based on selected items.

Skills Used: Firebase, Groq AI, Javascript, Material UI, Vercel

### **Complainers R Us | ~ 24 hours | Hackathon (Team)**

[github.com/celinaLind/Complainers-R-Us/tree/main](https://github.com/celinaLind/Complainers-R-Us/tree/main)

Develop an AI Chat Bot that takes in user complaints via chat or voice and then categorizes complaint and provides a useful response to user based on complaint given.

- Built and designed landing page and chat bot feature and functionality
- Developed bots ability to generate speech from text
- Integrated backend text-to-speech and speech-to-text capabilities to frontend components

Skills Used: Whispers, Google TTS, Tortoise TTS, Javascript, Python, Flask

### **Brainiax | In-progress | Fellowship (Individual)**

[github.com/celinaLind/big-brain](https://github.com/celinaLind/big-brain)

Create an SaaS application that can store and process user document uploads and answer any questions user has on said documents.

Skills Used: Convex, Zod, Clerk, Typescript, Shadcn, Tailwind

## **Activities & Certifications**

---

**Women In Tech | Western Governors University | Member since 2024**

**Accountability Club | Western Governors University | Member since 2024**

**B4WT Students & Ambassadors | Western Governors University | Member since 2024**

**Rewriting The Code | Member since 2024**

**Girls Who Code | Member since 2024**

**Society of Women Engineers | Member since 2024**

**GitHub Actions Certificate | GitHub**

**Full Stack Web Development Certificate | Ohio State University**
